Findings

The decision maker must decide if the facts presented in the record support the findings (i.e., criteria for approval) established in the LAMC. On a separate sheet, provide a detailed justification/explanation of how the proposed project conforms with the following:

1. The project will enhance the built environment in the surrounding neighborhood or will perform a function or provide a service that is essential or beneficial to the community, city,

or region.

2. The project's location, size, height, operations and other significant features will be compatible with and will not adversely affect or further degrade adjacent properties, the surrounding neighborhood, or the public health, welfare, and safety.

3. The project substantially conforms with the purpose, intent and provisions of the General Plan, the applicable community plan, and any applicable specific plan.

Supplemental Findings

In addition to the above findings for approval, the decision maker must also consider the following matters. The information is required but should not be considered as a limitation upon materials to be submitted. The applicant is encouraged to include any additional relevant materials.

1. The uses of property surrounding the proposed location of the joint living and work quarters and the use of the proposed location will not be detrimental to the health, safety, and welfare of prospective residents of the quarters.

2. The proposed joint living and work quarters will not displace viable industrial uses and will not substantially lessen the likelihood that the property will be viable in the future for industrial uses.
